

EARTH MOVING PLANT OPERATORS COURSE

The Earth Moving Plant Equipment Operators Course has been designed to provide the necessary skills in the procedures for safely operating earth moving plant equipment.

PROGRAMME PURPOSE

The purpose of this programme is to provide participants with knowledge, skills and attitudes to effectively and efficiently operate the equipment to achieve desired results. The course emphasizes the safety of the operator, the machine and furthermore the work environment. The Council trains in the following machines:

- Excavators
- Motor Grader

PROGRAMME STRUCTURE

One machine presents a module; therefore, each trainee shall be trained in one machine at a particular time. The programme is designed in such a way that both theory and intensive practical training are done concurrently. The level of competence achieved is assessed during and at the end of module before certification.

Note: A valid drivers license is a requirement for Motor Grader operation.

CONTACT PERSONS

Mr. Musonda Mulenga
